1	Bosnia and Herzegovina	City Development Agency of Banja Luka city	-	<p>We, the City development agency of Banja Luka city, are development agency established by Banja Luka city. Since established, we had been working on creation of strategic documents such as: City development strategy, Rural development strategy and SME development strategy. We are currently very focused on preparation and implementation of priority projects of greatest importance for development of Banja Luka city that were identified in strategic documents.</p> <p>There are several fields we are mostly focused on.</p> <p>In order to stop rural-urban migration we are working to improve quality of life in rural part of the city (90% of territory) and the development of sustainable agriculture (small food production and processing farms of traditional products) and rural tourism.</p> <p>We, the Agency, give special attention to job creation projects and SME development such as clusters, techno business park, incubators, education for SMEs, utilization of renewable energy resources etc. Our staff is highly educated in the fields of our mayor interest and have significant experience in implementation of donor funded projects.</p>	-	sucht Projekt
2	Hungary	"Consulent"	-	<p>Castles and fortifications are a specific feature of the region; they represent cultural heritage and resemble historic social cohesion. They are generally in very poor condition; the different ways for their 'modern era' utilisation are not exploited.</p> <p>The project will introduce innovative strategies for the revitalisation and utilisation of these buildings. It will strengthen transnational cooperation in this area and improve the management of these heritage sites and enhance their involvement in the development strategies of their respective regions. Their revitalisation will introduce new means for culture related sustainable economic development to the area.</p> <p>UNESCO world heritage would also mean more protection and funds for these sites.</p>	Aol 4.3 Promote the use of cultural values for development	We are looking for an Austrian Project Partner institution (preferably from the academia)
3	Slovenia	Chamber of Agriculture and Forestry of Slovenia	-	<p>Our Chamber in Slovenia has 124.000 members, 8 regional and 60 local organizations. We are, besides the Ministry of Agriculture, Forestry and Food, key player in the field of Slovenian agriculture, forestry and fishery. We are interested in participation in the projects in the field of agriculture, forestry, farm tourism,...</p>	-	sucht Projekt
4	Italy	Province of Pescara – Abruzzo	theme of the project: Religious Tourism	<p>The challenge is in reducing social, geographic and economic barriers between SEE territories, through an 'aware' tourism which is able to combine religious faith with natural and cultural heritages.</p> <p>A comprehensive religious tourism of art and religion, spirituality and form, nature and tradition would be woven into an extraordinary sequence of opportunities for the territory's development and the cultural value of places of worship (Sanctuaries, Churches, Monasteries, Mosques) and faith journeys could be an impressive catalyst to address the touristic flows even to less known but culturally rich destinations.</p>	Aol 4.3: Promoting the use of cultural values for development.	The searched partners are : Public Authorities, Touristic Operators Associations, Religious Touristic Bodies or Association, Chamber of Commerce

5	Greece	Municipality of Evrimenes	Innovative green eco/agro-tourism	Tourism industry plays an important role in the socio economic development, employment and growth creation of smaller communities in natural areas located in rural and/or maritime regions where local economy is often solely dependent on tourism besides agriculture. Moving towards sustainable green tourism could bring opportunities to connect tourism with the increasingly valued assets offered by the natural environment of hinterland areas and with local agriculture. This could help communities to answer increasing competition from the growing variety of tourist destinations while preserving and enhancing their natural and cultural heritage in an ever expanding number of areas, ranging from arts to local gastronomy, crafts or the preservation of biodiversity.	Aol 2.3: Promote co-operation in management of natural assets and protected areas	The Lead Partner is currently looking for local municipalities, regional authorities, development agencies, entrepreneurial associations, chambers of commerce, regional training centres in the South East European region facing similar problems
6	Hungary	Municipality of Dunaújváros	Danube Inland Harbour Development (DaHar)	<p>Promote and strengthening the competitiveness of inland waterway transport is an EU and national transport policy priority. However, the existing infrastructure and services of Danube inland freight harbours have to be improved to meet increasing requirements. This means that eventually they have to operate as multimodal freight transport hubs.</p> <p>DaHar aims at laying the grounds for harmonized development of Danube ports, the most important SEE inland waterway and to raise proportion of waterway transport in the future. It wishes to focus on how to</p> <ul style="list-style-type: none"> <li>- develop ports into multimodal centres environment friendly</li> <li>- establish development scenarios for specialisation of ports taking into account different profiles, development aims</li> <li>- link port development to urban planning</li> <li>- ensure increased public governance in development processes.</li> </ul>	Priority 3 - Accessibility	looking for a potential Austrian partner (preferably a Municipality)
