a prosperous and inclusive
Danube Region

The Danube Region testifies to the undiminished vitality of the European integration process. Its distinct social and economic diversity is both a challenge and an opportunity. Ownership and participation are key to the success of the EU Strategy for the Danube Region.

Meet stakeholders from the whole Danube area, exchange and showcase your experiences, discover models of successful cooperation and discuss vital questions of the Strategy's prospects and challenges:

We grow together – the Danube region as an area of shared prosperity, good governance, inclusiveness and equal opportunities.

Together we grow – regional integration for the benefit of all, leading to peace and well-being, growth and international competitiveness.

The Annual Forum is the main event of the year for the EU Strategy for the Danube Region. In 2014 it is organised by the European Commission, the City and Province of Vienna and the Republic of Austria.
