## Where Europe stands now ?

**The crisis has wiped out recent progress:**

- **GDP growth:** - 4% in 2009, worst since the 1930s
- **Industrial production:** - 20% with the crisis, back to the 1990s
- **Unemployment levels:**
  - 23 million people
  - 7 million more unemployed in 20 months
  - expected to reach 10.3% in 2010 (back to 1990s level)
  - youth unemployment over 21%

Regional Policy

## Europe 2020: EU after the crisis (i)

- **Europe's structural weaknesses have been exposed:** lower growth potential, productivity gap, high and rising unemployment, ageing poverty, limited fiscal room
- **Global challenges intensify:** competition from developed and emerging economies, global finance, climate change and pressure on resources

- President Barroso

**“The crisis is a wake-up call ... ‘business as usual’ would consign us to a gradual decline”**

(Communication, 3 March 2010)

European Commission

Regional Policy

## Three scenarios for Europe by 2020

### « Sustainable recovery »

Europe is able to make a full return to earlier growth path and raise its potential to go beyond

### « Sluggish recovery »

Europe will have suffered a permanent loss in wealth and start growing again from this eroded basis

### « Lost decade »

Europe will have suffered a permanent loss in wealth and potential for future growth

European Commission

Regional Policy

## Europe 2020: EU after the crisis (ii)

- **Europe needs to be back on track** : our short term priority is a successful exit from the crisis
- **Whilst taking a long-term vision**: where Europe should be in 2020 – no time to waste to face challenges

- » **Therefore, a new strategy “Europe 2020” to return to growth, but not same – unsustainable – growth, rather:**
  - ‘smart’, sustainable and inclusive growth
  - translating into high employment and social & territorial cohesion

European Commission

Regional Policy

## Why a European strategy?

- **Economic interdependence**: crisis showed need for joint EU responses and more economic policy coordination if EU is to weigh in global fora
- **The political momentum within the EU is clear**: problem analysis on urgency and need for more econ. policy coordination is shared (informal Summit of Heads of state & govt – 11.2.2010)
- **Only the EU gives us the critical mass to have impact:**
  - Activate all policy areas and levers in an integrated way
  - Exchange best practice

## Lessons from Lisbon Strategy

### Strong convergence on direction of reforms ...

- Concrete results before crisis
- Partnership EU & Member States
- « Lisbonisation » of structural funds

### ... but a delivery gap has built up:

- Uneven progress between Member States
- Key targets (R&D, employment) not reached
- Lack of ownership; weak communication
- Regions not sufficiently involved
- Too EU-inward looking

→ UPDATE VISION TO POST-CRISIS WORLD & IMPROVE DELIVERY

Regional Policy

## Europe 2020: delivering reforms
